

Profile Summary

Enthusiastic and results-driven Full-Stack Developer with 2+ years of professional experience in, developing, and deploying scalable web applications. Proficient in building robust RESTful APIs using Node.js, NestJS, and Express.js with strong expertise in React.js and next js front-end integration. Experienced in database design (MongoDB, MySQL, Sequelize), Adept at problem-solving, optimizing performance.

Professional Skill

- **Languages:** JavaScript, TypeScript, Python Basic
 - **Back-End:** Node.js, NestJS, Express.js
 - **Front-End:** React.js,Next.js React-Redux
 - **Databases:** MongoDB, MySQL, Sequelize,ORM
- **DevOps:** Docker, Git, CI/CD Pipelines
 - **Real-Time:** Socket.io,Firebase
 - **Soft Skills:** Problem Solving, Team Collaboration, Agile Development

Education

- **Government Polytechnic, Lucknow** — Post Graduate Diploma in Computer Application (PGDCA) Jul 2020-Jul 2022
- **Awadh University, Faizabad** — Bachelor of Science (B.Sc) Jul 2017-Jul 2020

Work Experience

Xipetech Technologies Pvt. Ltd., Lucknow

Software Engineer (Full-Stack)

Mar 2025 – Feb 2026

- Built modular microservices using NestJS and Docker, improving deployment speed by 30%.
- Developed real-time systems with Socket.io and Redis for live notifications and user status.
- Implemented CI/CD pipelines with GitHub Actions ensuring seamless production releases.

Jamtech Technologies Pvt. Ltd., Lucknow

Software Engineer (Full-Stack)

Aug 2023 – Mar 2025

- Developed and maintained REST APIs using Node.js, Express.js, and NestJS serving 10K+ active users.
- Designed relational and NoSQL schemas for scalable systems using MySQL, MongoDB, and Sequelize ORM.
- Integrated Stripe for secure online payments and implemented real-time features with Socket.io.
- Collaborated with React.js front-end developers to deliver end-to-end product functionality.

Wire-Wings Pvt. Ltd., Lucknow

Software Engineer Intern (Full-Stack)

Jan 2023 – Jul 2023

- Developed e-commerce modules in the MERN stack including cart, order, and checkout flow.
- Integrated Stripe for payments and improved page performance by optimizing API calls.
- Assisted in designing responsive front-end components with React-Redux.

Projects

- **RankEat- Restaurant Discovery Platform**

- *Tech: Node.js, Express.js, MongoDB, React.js, Next.js, Stripe, Docker, CI/CD*
- Engineered a full-stack restaurant discovery and food ordering platform with real-time order tracking, secure online payments, and dynamic restaurant listings.
- Integrated Mapbox APIs for location-based restaurant discovery and JWT authentication for secure user sessions.
- Deployed with Docker containers and implemented a CI/CD pipeline (GitHub Actions) for automated builds and deployment.

- **E-Commerce Platform**

- *Tech: Node.js, Express.js, MongoDB, React.js, Next.js, Stripe, Docker, CI/CD*
- Built a full-featured e-commerce system supporting product management, cart, and checkout functionality.
- Integrated Stripe for secure multi-payment support (cards) with automated invoice generation.
- Configured role-based authentication for admins, vendors, and customers.
- Implemented automated Dockerized deployment and CI/CD pipeline to streamline release management.

- **Real-Time Chat App**

- *Tech: Node.js, Express.js, React.js, Socket.io, MongoDB, React.js*
- Implemented a scalable chat app with typing indicators, group messaging, and manage concurrent user support.

- **Real Estate Portal**

- *Tech: Node.js, Nest.js, MySQL, Sequelize, Firebase, React.js, Next.js, Stripe*
- Designed and implemented a property listing and management system with advanced filters, map-based search, and secure payments.
- Integrated Firebase Cloud Messaging for real-time property notifications and Stripe for payment handling.
- Built admin and moderator dashboards for property management, renewals, and user analytics.
- Optimized backend queries with Sequelize ORM and deployed using Next.js SSR for SEO optimization.

- **Panda E-Commerce Platform**

- *Tech: Node.js, NestJS, Bull Queue, Redis, MySQL, Docker*
- Built a scalable e-commerce backend using NestJS with modular and maintainable architecture.
- Implemented Bull Queue with Redis for background job processing including order handling, notifications, and async workflows.
- Developed RESTful APIs for product, cart, order, and payment management.
- Improved system reliability using retries, delayed jobs, and failure handling mechanisms.

Languages

- **Hindi:** Native Hindi
- **English:** Highly Proficient

Interests

- Reading technology and self-improvement books
- Problem solving and exploring new coding challenges
- Listening to music for creativity and focus
- Learning emerging web technologies and frameworks
